FINEST ARTISANAL DESIGN

**TREE**

# TREE

Nature inspires us for the design of this flowering almond tree, made with branches so skillfully carved and sculpted by our sculptor, that they are hardly distinguishable from the real ones. These branches are performed with the technique of casting lost wax as it was once performed. We use the purity of glass as an ornament for the small glass sculptures made by hand that make flowers. The ensemble reaches a symbiosis between nature and artist that is reflected in the splendor of this piece.

# TREE

Pendant lamp in the form of a tree branch with its derivations in the form of smaller branches, made of brass with the technique of casting to the lost wax as the ancient sculptures were manufactured. The similarity of the branches with a natural branch reaches the maximum perfection because they are small sculptures with the maximum detail and realism, manufactured by a sculptor. From the branches hang glass ornaments of different sizes simulating raindrops. We use the purity of the glass as an ornament for the small handmade glass sculptures that make drops. The set reaches a symbiosis between nature and artist that is reflected in the splendor of this piece.

# TREE

Pendant lamp made of brass with the technique of casting to lost wax like ancient sculptures. It is a central ball where the bulbs are housed, from which different arms start in the form of concentric branches forming a ball. The similarity of the branches with a natural branch achieves maximum perfection because they are small sculptures with maximum detail and realism, manufactured by a sculptor. The decoration based on shine gold giving you the touch of distinction and luxury.

# TREE

Nature inspires us to design this tree branch-shaped ceiling lamp with its smaller branch-shaped derivations, made of brass with the technique of casting lost wax like ancient sculptures. The similarity of the branches with a natural branch achieves maximum perfection because they are small sculptures with maximum detail and realism, manufactured by a sculptor. The decoration based on shine gold, and with no ornaments reminds us of the evenings where small suns that are the bulbs, deftly distributed along the trunk, illuminate us through the branches.

# TREE

Contemplating this lamp brings us closer to nature and makes us explore inside in search of that cheerful spirit that inspires its finish, based on shine silver and glass balls of different colors, made by hand. It is a ceiling lamp that simulates a curved tree branch with its derivations in the form of smaller branches, made of brass with the technique of casting lost wax like ancient sculptures. The similarity of the branches with a natural branch achieves maximum perfection because they are small sculptures with maximum detail and realism, manufactured by a sculptor.
